## (54) COMPOSITION RETAINING SUGAR-LIKE FLAVOR

### (57)Abstract:

PROBLEM TO BE SOLVED: To obtain a sweet agent of new type retaining a sugar-like flavor even in acidity and a sweet agent effectively usable as a sweetener in various fields such as food and beverage, feed, pet food, medicine, etc.

SOLUTION: This composition retains a sugar-like flavor by coexistence of fructose and trehalose. The composition retains a sugar-like flavor in acidity. The composition retains a sugar-like flavor by coexistence of fructose and trehalose in the rotation of 1:(0.4 to 1.0) and or retains a sugar-like flavor in acidity. The composition is a sweet agent composition or a food and a beverage. The food and the beverage include a food and a beverage using the sweet agent composition. The food and the beverage include the whole foods and beverages, e.g. beverages, seasonings, cakes such as jelly, pudding, cake, cookie, etc., prepared foods, retort canned foods, etc.
